

Final Curriculum Vision

No Barriers, Only Potential.

At Pen-y-Cwm School, it is our mission to nurture independent 21st century citizens who are able to develop life skills, resilience and an understanding of themselves.

Our aim is to provide a safe, calm personalised learning environment; their 'Cynefin' is rooted in our curriculum offer and based on the UN Rights of the Child. Diversity and individuality is celebrated enabling our children and young people to flourish and grow. A love of learning is fostered through experiential opportunities and our "learning by doing" philosophy encourages empowerment and independence across our community.

The curriculum at Pen-y-Cwm School is coherently planned and sequenced to enable all pupils to thrive. It is designed to be collaborative and inclusive; challenging but supportive; dynamic, responsive and innovative. Using a thematic approach, it is engaging and creative, allowing learners to own their learning journey.
